

Occupational Interest Profile (OIP)

What does it measure?

The OIP measures interest derived from Holland's self-directed search, as well as aspects of personality that are related to work satisfaction (work needs). When combined with the GRT2, an integrated career profile of recommendations is generated.

Materials

- Technical Manual
- SA User Guide
- GeneSys online system
- Paper and pencil version is also available

Intended Use?

- School leavers, working adults
- Training, career changes, career guidance
