

**PROFESSIONAL BOARD FOR PSYCHOLOGY
PSYCHOMETRICS COMMITTEE
LIST OF CLASSIFIED TESTS**

According to the *Regulations Defining the Scope of the Profession of Psychology* (Government Gazette, No. 31433, 16 September 2008, section 2(f)), the Board must publish a notice of tests classified for use by psychology professionals. Test classification is the process of determining whether a test is psychological in nature or not. Psychology professionals should note that although the psychological tests contained in the list below have been classified, the onus rests on the psychology professional to use the tests in fair and ethical ways. According to Annexure 12 of the Ethical Rules of Conduct, ethical assessment practice includes ensuring that the tests used are appropriate for the purpose that they are applied, are psychometrically sound, and that their content, construct coverage, and norms are both appropriate for the target population and are up to date (i.e., the tests are not obsolete).

The following tests have been classified by the Professional Board for Psychology as being psychological tests according to the scope of the profession of psychology regulation R993 of the Health Professions Act.
